

# DEAN F. WOLFE

## QUOTES

*Gay men love everything about women, except for their whole.....yeah, except for their hole...*

I was born in Florida and raised by Wolfes.

Went to several schools in Florida, got a BA in Communications...a poor choice that led to comedy...it usually is. Thought I would grow up to be a pimp since I misunderstood my first \$3 allowance from my father. I figured he was just paying to have sex with my mom.

Started doing Stand up in San Francisco in the eighties, when everyone had a comedy club...Life was beautiful. Now everyone is on the Web. People need to get out of their homes more regularly. How's a guy supposed to make a living? It's much more sketchy breaking into someone's house when they're home.

I moved to Los Angeles to pursue my stand up and writing career. I've written for The Late Late Show with Craig Kilborn as well as Feature Films, Cartoons (yes, the published kind), and various other important crap.
